قتيل وعدد كبير من الجرحى في ميدان التحرير

نهاي محافظات عراقية ضربها العنف أمس، فلقي فيها ٧٦ قتيلاً على الأقل و٢٥٠ جريحاً، في ما بدا الحلة الأحدث لاستهداف الشيعة الذين يحيون ذكرى وفاة الإمام موسى الكاظم في مراسم تبلغ ذروتها السبت، وإن تكث التفجيرات شملت كذلك مقار كبرى في شمال البلاد.

HOOVER

History

Products

Distributors

The first factory, in Perivale in Middlesex, opened in 1932 with Hoover quickly establishing itself as the undisputed leader in the floor-cleaning market. In 1946, Hoover began production at the new factory in Cambuslang (Scotland). In 1948, the plant in Merthyr Tydfil (Wales) opened for the production of washing machines, and soon Hoover became market leader in Britain and today remains a significant brand in the market. Hoover Group continued their expansion up to the eighties, when they reorganized their production, control and governance.

Today, Hoover is a leader in the floor-care market in Europe. It also produces and markets a wide range of large domestic appliances with a medium to high market positioning - products still based on the founding principles of perpetual innovation, great performance and cutting edge design.

A lot has happened since Hoover created the world's first upright vacuum cleaner. In fact, the increasing demands of busier, more complex lives has meant that change is something we've had to not just get used to but to anticipate and make the most of.

That original 1908 cleaner has been joined by generation upon generation of new products and innovations all designed to meet the continuing needs of people, their homes and, latterly, the planet. So as we look forward to our next hundred years and the needs of future generations, we're pretty sure that change will be one of the few unchanging things.

History

Known around the world, Hoover has celebrated over 100 years of making quality appliances.

Hoover is dedicated to creating and providing today what customers will demand as the standard of tomorrow. We're constantly thinking ahead to ensure we are able to meet the needs of our many and varied customers with clever, affordable products that are simple and easy to use.

Originally founded in Ohio in 1908, Hoover Limited became a registered company in the UK in 1919.

ABOUT WONDEREIGHT

We are a Beirut based design agency, working for international and local companies who like to challenge their customers and want to be different and daring. Benefiting from our cultural diversity, we innovate in the fields of branding and visual communication. Our strategic location in the gate of the Middle East allows us to bridge between western and eastern brands and to create concepts that work in their environment while introducing new ways of co-creation.

Founded in 1999 by Nasrala brothers Boudy and Walid, today, with Karim Abourizk also on board it gathers a handful of highly skilled creative designers, web developers and marketing strategists who enjoy a bespoke work environment, made to inspire and interact with the local design and art community. This creative space regroups a design agency, a prototyping workshop, a facility for trainings and talks, a handpicked book library and an art exhibition space.

This multifaceted environment keeps on renewing itself and creates a constant synergy between us, our clients, and the public.

WHAT WE DO

Our practices range from brand creation, to visual identity design, brochures, posters, packaging, stands, signage, graphic decoration, communications, above & below the line campaigns, marketing strategy, online and ambient media buying, copywriting, creative copy and design consultancy. We also design and develop websites and interactive solutions, advanced UX, Apps, animation and game design. We specialize as well in illustration and character creation.

WORK SHOP

G A L L E R Y

Workshop Gallery is a new independent exhibition space for contemporary art, hosted within our premises to complete the building's gestalt.

From its modest 14.3 sqm, it puts the emergent Lebanese and international artists under the spot light, in a mission to encourage the diversity and experimentation of art in the region.
